

*REMARKS/ARGUMENTS*

In response to the Office Action mailed November 28, 2006, Applicants amend their application and request reconsideration. In this Amendment claims 8-10 are cancelled leaving claims 5-7 pending.

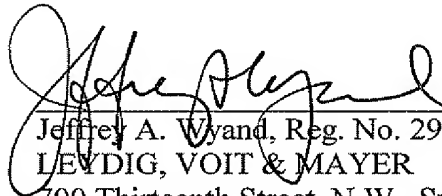

In submitting the RCE on October 26, 2006, an error was made with respect to the amendment of claim 5. As was apparently recognized by the Examiner, the words "between the base member and the mount member, proximate the mount member," should have been underlined in that claim 5. Since the claim was entered, that change is not shown in this Response.

Claims 5-7 were rejected for double patenting over a co-pending U.S. patent application which matured into U.S. Patent 7,178,636 on February 20, 2007. In reply to the double patenting rejection, a terminal disclaimer is supplied with this Response.

There is no prior art rejection with regard to claims 5-7 so that those claims, the only remaining claims of this patent application, should be allowed.

Reconsideration and allowance of the remaining pending claims are earnestly solicited.

Respectfully submitted,
